

Social Mobile is an enterprise mobility solutions provider who designs, engineers, manufactures, and manages custom mobility solutions for clients in all industries, from healthcare to retail to defense.

We specialize in designing custom Android-based IoT devices in all form factors, including smartphones, tablets, wearables, and more. Social Mobile is an Android Enterprise-validated Gold partner with over 12 million devices distributed globally – all of which are Play Protect Certified and supported by our team of accredited Android Enterprise experts.

We work closely with each client to understand their unique challenges and requirements, tailoring our solutions to meet their specific needs and deliver on budget and on time, every time. Our custom solutions integrate hardware, software, device management, staging and kitting, deployment, wireless connectivity, and more.

Social Mobile is the only US-based OEM with a pure focus on custom enterprise mobility. Founded in 2011 by current CEO, Robert Morcos, and is headquartered in Hollywood, Florida. Our team of accredited Android Enterprise experts span the globe with offices, warehouses, and facilities in multiple countries ensuring high-quality solutions with full supply chain visibility.
